Goyang City starts operating the nation's first 'Goyang Safety Car Screening Clinic'... From reception to examination and prescription quickly and safely in the car-We will capture both convenience and safety with a new treatment method-Use of Seosamneung youth campsite, no place to stay There

is also a space for self-quarantine... Goyang City will be operating the nation's first 'Goyang Car Screening Clinic' on the 26th, introducing a new treatment method that can solve from reception to examination at once without getting out of the car. Revealed. As the Corona 19 crisis response alert has been upgraded to a "serious" stage, it is judged that a quick and safe diagnosis and examination method is needed in the event of a large-scale suspected patient.

A screening clinic is a place where patients with suspected infectious disease receive pre-treatment before visiting a medical institution to receive formal treatment. Currently, there are 7 in Goyang City, and 567 are installed nationwide.

With the recent rapid increase in corona19 confirmed patients, the number of inquiries and users for consultation at public health center screening clinics has increased, and the use of public health center screening clinics to the hospital screening clinic is recommended, increasing the concentration of suspected patients in the public health center screening clinic, and waiting time for treatment and sample collection. Even civil complaints are occurring.

The 'Goyang Car Screening Clinic', first operated by Goyang City, is a new type of screening clinic that allows you to easily proceed through the process of reception → interview → prescription or examination while riding a car.

With more than 100 people visiting the screening clinic on the last day, Goyang City's 'Goyang Safe Car Screening Clinic' will provide a breakthrough plan to block transmission between waiting people, protect medical staff during treatment, and minimize inconvenience to waiting people. It is expected to be.

The 'Goyang Safe Car Screening Clinic' is open from February 26 to March 11, and is open from 10 am to 5 pm on weekdays and weekends at the Bishop's 1st public parking lot. A plan to extend it according to future circumstances is also under consideration.

Goyang Mayor Lee Jae-joon explained, "At the time when the screening treatment function to block Corona 19 becomes more important in the future, the 'Goyang Car Screening Clinic' can be operated with the active participation of the medical staff of the Goyang City Medical Association and general hospitals." , "If the utility is verified after operating at the first public parking lot in Jugyo-dong, we will install and operate additional facilities in Ilsan."

Meanwhile, Goyang City decided to provide Seosamneung youth camp space to those who were judged to self-isolate at the 'Goyang Car Screening Clinic' and have no place to stay right away. Seosamneung Youth Campground is a camping site near Seoul run by the Korean Scouts and Gyeonggi Northern Federation and is located on Seosamneung-gil, Deokyang-gu, Goyang-si. End.
